

8. FIELD ENGINEERING DIVISION LOGNOTE - 15 May 1987

HOPEWELL G.

STAT

Dan Wallace, Overseas Telecommunication, Inc. Project Manager, called to say that he was at the Prince William County offices and had received the proper permit to take down the 35 feet of antenna that they, OTI, had erected. He said that a special use permit will be required to put up the antenna as the property is zoned as "resource management". The planning commission's next meeting is scheduled for the 2nd or 3rd of June. If they approve the permit, then the Prince William Country Commissioners must approve their request, which would be in early July.
